DESIGNED FOR MODERN BATHROOMS

A slim white finish and integrated towel rails create a clean, practical bathroom heater that provides radiant warmth without the bulk of a conventional radiator.

Typical applications

Bathrooms • En-suites • Hotels • Care facilities

BATHROOM INFRARED HEATER RANGE

Technical specification

Three smart bathroom heater and towel warmer models with integrated Wi-Fi thermostat control.

MODEL / SKU	W	DIMENSIONS (MM)	CONTROL	WEIGHT	IP	SURFACE
BTA6060G530	530	650 x 612 x 110	Wi-Fi + touch	8.7 kg	IP54	85-110 C
BTA8060G730	730	850 x 612 x 110	Wi-Fi + touch	11 kg	IP54	85-110 C
BTA12060G1230	1230	1250 x 612 x 110	Wi-Fi + touch	16 kg	IP54	85-110 C

Rated output shown includes the integrated 30W towel-warming bar.

CONSTRUCTION

Powder-coated aluminium body with graphene carbon infrared heating element and integrated towel bars.

ELECTRICAL & CONTROL

Built-in Wi-Fi thermostat and touch control. 1.2m cable. Smartphone control and programmable scheduling supported.

PROTECTION

IP54 splash protection, manual-reset thermal cut-off for overheat protection, with UKCA, CE and RoHS conformity markings.

INSTALLATION

Wall mounting only. Install in the correct bathroom zone and at least 600mm above floor level; electrical work should be completed by a qualified electrician.

INSTALLATION, CARE & WARRANTY

Bathroom towel heaters are designed for wall mounting only and should be installed in accordance with the supplied instructions and applicable electrical and bathroom-zone requirements. Clean with a soft damp cloth only when switched off. The new RADI8 datasheet range carries a 10-year warranty.
